## Listen up to 50 feet (15 meters) away!

Roll-in transmitter (Stealth Microphone)

Roll-in Bug Requires two AA (LR06) Batteries, not Included. Receiver requires 2 AAA (LR03) Batteries, not included.

Audio receiver

Important: Please save this instruction sheet. It contains valuable product information.

### How to hear conversations, secrets and more with the Roll-in Spy Bug.

- 1. Turn on the Roll-in Transmitter by moving the switch on the bottom of the roll-in ball (Fig. 2) to the "on" position
- 2. Turn on the Audio Receiver by moving the switch on the side of the receiver to the "on" position (Fig. 1)
- 3. Find a subject or group of subjects that you want listen to and gently roll in the Spy Bug across the floor so it is positioned in a good spot for picking up sounds and voices. Note that the Microphone will usually be pointing in the "up" position when it stops rolling. However the microphone will still pick up and transmit sounds even when the microphone is not in the "up" position.
- 4. Clip the Audio Receiver on your pocket or belt and unwrap the Ear Bud cord from the storage groove on the Audio receiver (Fig. 1)
- 5. Place the ear bud gently in your ear and you are now able to hear the sounds from the location of the roll-in transmitter!
- Tip: You can also place the Roll-in Transmitter in a good location ahead of time so you are able to listen in to any sounds or conversations. Example on a bookshelf, kitchen counter or desk.
- Tip: When finished playing with the Roll-in Spy Bug please turn off both the transmitter and receiver to save battery life!

#### **BATTERY SAFETY INFORMATION**
